Amy Tarver
Executive Director

There have been many stage productions of Frances Hodgson Burnett's classic tale *The Secret Garden*, but as with all TILT productions, we examined the original source material through our unique perspectives. As we embarked on our adaptation, we were struck by the themes of rejuvenation that nature can provide to the world - but we wanted to take it a step farther.

Through examining the healing power of nature, we found the value of connection with each other, and also a connection with our Earth. The simple act of planting a tiny seed can grow into the largest tree. The seeds and deeds we plant can provide the world with shelter, sustenance, and - ultimately - joy.

Through this reflection, we created *The Secret Guardian* - an acknowledgement that we are all guardians of the planet. We invite you to reflect on the seeds and deeds you have planted and how our individual planting can ultimately create a garden of love, balance, and true beauty. Creating a world through planting seeds or quiet acts of kindness will make a beautiful garden for us all!
